IAM4RE.eu

Redefining Entrepreneurship in Research through Intellectual Asset Valorisation and Standardisation

Training, **Mentoring** and **Policy Guidelines** for Research Institutions, Technology Transfer Offices, Researchers and Spin offs

IAM4RE.eu offers a growing portfolio of services and learning opportunities to strengthen Intellectual Asset Management capacities across Europe and support R&I stakeholders in adopting effective knowledge valorisation practices.

Training Suite

Provides practical knowledge and guidance on Intellectual Asset Management, knowledge valorisation, entrepreneurship, and standardisation for research and innovation stakeholders across Europe.

Mentoring Services

Support organisations in strengthening their Intellectual Asset Management practices through tailored guidance and practical implementation support.

MOOC

Offers flexible and accessible learning opportunities for participants interested in Intellectual Asset Management, entrepreneurship, and research valorisation.

Train-t-Trainer Programme

Builds long-term capacity by equipping trainers, multipliers, and innovation support professionals with the knowledge and tools needed to further disseminate IAM practices within their organisations and networks.

Strengthen the Intellectual Asset Management and knowledge valorisation practices across Europe with us!

Join the IAM4RE Community of Practice!
